

### From the Editor's Desk

To our audience both in practice and academia we are pleased to introduce to you the 14<sup>th</sup> edition of the Botswana Journal of Business. This journal with its interdisciplinarity seeks to promote radical thought that would engender societal change. This is a thought that would challenge our understanding of our contextual being and how to extract emancipatory locations. The discourse in the journal contributes to informed positions on the interplay between theory and praxis.

I am eternally indebted to editorial board and the reviewers who made this issue possible through their dedication to service. This issue contains three papers covering and uncovering critical issues in financial markets, the financing of agriculture as well innovation acumen in manufacturing amongst the Botswana SME.

Thank you.
